

This topographic map shows a landscape with a grid of elevation points. A large, dark, rectangular area is shaded, representing a forest or a large building. A red circle is drawn around this shaded area. To the right of the shaded area, there is a pink-shaded region. The map includes various labels, including 'Cité de la Vierge' and 'Cité de la Vierge'. A blue line, likely a river or stream, runs along the right edge of the map. The map is overlaid with a grid of elevation points, with values ranging from 100 to 200 meters.

[illegible]

An aerial photograph of a large industrial facility, likely a manufacturing plant or warehouse. The facility is characterized by a large, light-colored, corrugated metal roof. A red boundary line is drawn around the main building and an adjacent area to the right. The surrounding landscape includes various fields, some of which are green and others brown, suggesting different crops or stages of growth. There are also some smaller buildings and structures scattered around the main facility. The image is oriented vertically, with the top of the page showing the top of the facility and the bottom showing the bottom of the facility.
